### **DETAILED ACTION**

Receipt and entry of Applicant's Preliminary Amendment filed on Dec. 23, 2005 is acknowledged.

Claims 1-10 have been canceled. Claims 11-21 have been added. Accordingly, claims 11-21 are pending in this application.

#### ***Priority***

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

#### ***Drawings***

2. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the "vane cell pump" recited in claim 21, must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an

application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

3. Applicant is required to show longitudinal sectional views of vane pump cell including a side plate and radial packing ring (i.e. see Fig. 2 of US 6,817,847).

***Specification***

4. The title of the invention is not descriptive. A new title is required that is clearly indicative of the invention to which the claims are directed.

***Claim Objections***

5. Claims 11-21 are objected to, in that their subject matter needs to be incorporated into the specification and the drawings.

***Prior Art***

6. The IDS (PTO-1449) filed on Dec. 23, 2005 has been considered. An initialized copy is attached hereto.

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure and consists of five patents: Sadler et al. (U.S. Patent Number 3,806,287), Snow et al. (U.S. Patent Number 5,290,155), Ramsay (U.S. Patent Number 6,210,103), Parsch et al. (U.S. Patent Number 6,413,064) and Wong et al. (U.S. Patent Number 6,481,990), each further discloses a state of the art.

***Conclusion***

8. This application is in condition for allowance except for the following formal matters as set forth above.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 25 USPQ 74, 453 O.G. 213, (Comm'r Pat. 1935).

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
